

Peel L&P achieves an EcoVadis Silver Medal for sustainability

As existing and future clients become more discerning and seek workspaces owned and managed by environmentally and socially responsible companies, Peel L&P is striving to show stakeholders why it is the landlord of choice.

Peel L&P recently undertook the EcoVadis sustainability assessment at the request of Capita plc, the largest business process outsourcing and professional services company in the UK. Capita's offices in the north west are owned and managed by Peel L&P.

EcoVadis is a world-recognised provider of business sustainability ratings, with the objective of assessing the quality of a company's environmental and social performance. Participating in the EcoVadis assessment also helps companies to understand their risks and areas for improvement, so they can take action to remain competitive in today's post-pandemic business environment.

Peel L&P's EcoVadis scorecard

61%
Peel L&P's overall score

25%
Peel L&P placed in the top quarter of companies assessed by EcoVadis

10%
Peel L&P placed in the top ten percent of companies for environmental performance

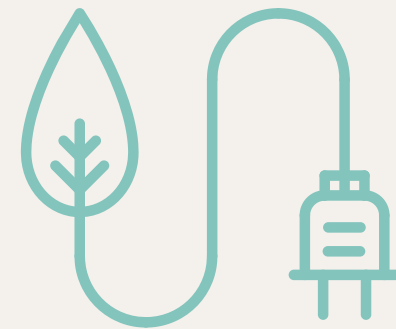

Strengths outlined in the assessment:

Scored above average
in all reporting categories

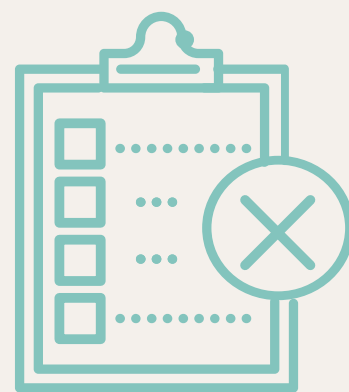

Detailed reporting
of waste management

Commitment to reducing
energy consumption

Ability to effectively
communicate progress
towards the United
Nations Sustainable
Development Goals

No corrective actions
to undertake as a result
of the assessment

“This is a great achievement for Peel L&P, showing our ongoing commitment to embedding sustainability in our business practices.

We have successfully operated the ISO 50001 energy management system for many years and more recently in 2020 created a Net Zero Carbon portfolio of office buildings. The EcoVadis Silver Medal recognises that we are taking action on social and ethical issues as well as environmental matters.”

Paul Chappels, Director - Facilities & Asset Management at Peel L&P
